

About Tendo Electronics

Tendo Electronics and Power Engineering is a leading service and turnkey solution provider for network critical physical infrastructure (NCPI) and renewable energy and energy efficiency solutions. Having been incorporated in 1996, it is now Zimbabwe's leading service provider in the field of complete power availability solutions.

Those who have selected Tendo Electronics as their solution provider define us as the best choice for complete service and performance. Our goal therefore is to consistently meet customer service delivery, support and value expectations, "The Service Is The Product". Our customers are our number one priority as they are the driving force behind our business. We also strive to have the most efficient suppliers and aim for continuous improvement in supplier relations.
